NEW PRODUCT NEW COLOUR!

VISION by RHINO DECK

Compared to our solid deck board, this new decking is a grooved board that can be attached to the joist by deck clips instead of pre-drilling, drilling then attaching through the top of the board. This gives the deck a cleaner look with no visible screws & reduced labor & installation time. Deck clips come with a matching stainless steel screw for less visibility. Rhino Vision is available in Chestnut colour.

TOFINO COMPOSITE DECKING

A deck for all seasons • Adds value and beauty to your home • Affordably priced
 Tofino Composite Decking is manufactured with a superior process utilizing a composition of recycled polyethylene, wood fibre and rice flour that result in a perfect composite material for building decks, porches, patios, pool and hot tub surrounds.

- Easy to install - just like wood but does not require finishing
- UV inhibitors added for long lasting colour
- Barefoot friendly, slip resistant and splinter free
