

Floating Flooring

Real Wood Flooring

Robina Engineered Flooring

1. Finish - Nine layer finishing system includes double applications of aluminum oxide crystal coating for superior durability and a perfectly even, satin finish.
2. Top Veneer - Wide range of solid hardwood surface veneer wood types and tones. The proprietary process minimizes cracks or checks.
3. Core Board - Made of poplar wood which is highly renewable resource. Constructed in multiple cross-ply layers for superior dimensional stability.
4. Balance Board - The wood balance board provides maximum structural support and prevents distortion.
5. VR-Loc® Locking System - Makes installation a snap.

Installs using a simple “angle and push down” method. Simply angle one side of the board onto the next and push down. That’s it... really. These floors go together so quickly and easily, a do-it-yourself customer could successfully install a VR Loc Floor within a day and save the cost of a professional installation. Once completed, a VR Loc wood floor looks just like a floor installed with traditional nail, staple or glue down methods, but for less money, in less time and with less frustration

25 Year Manufacturer Warranty

Robina
WOOD

Natur Cork Flooring

There are few products that we think are a class of their own and this is one of them. Natur Cork’s impact on the environment is very low due to sustainable harvesting

practices. Cork is the bark of the Cork Oak tree, which is harvested every 9-14 years. The tree is never cut and its habitat remains undisturbed.

Features:

- Ease of installation (no glue, lock system)
- Durable, comfortable & hypo allergenic
- High thermal value
- Super sound absorption
- 100% natural
- Ability to retain heat and absorb sound transmission.
- Reduces ambient room sound like noise created by foot contact with the floor.
- 100% cork top layer, HDF Aquastop core, 100% cork backing.
