

Mouldings

Pine Mouldings

Knotty Pine

For a casual, informal look. Stain or varnish to suit your decor. The reddish brown tight knots add interest to any room.

Fingerjoint Pine

(Not Shown) Mouldings are primed with a lacquer-based primer, which provides a clearly superior paint surface to the water based primed products offered by others. No grain raise, fuzzing, or fingerjoints showing through. Less paint, little or no sanding, less hassle.

Maple Mouldings

Solid Maple Mouldings

Stained or varnished, this moulding is enhanced by the natural beauty of its hardwood. Cream to light reddish brown in color, maple mouldings will compliment Maple flooring and Maple kitchen cabinets.
